

Nadun Kaushalya Siriwardhana

ID: 200030703217 **Nationality:** Sri Lankan **Date of birth:** 02/11/2000

Phone number: (+94) 768335188 **Email address:** nadunkaushalya2015@gmail.com

LinkedIn: Nadun Kaushalya

Website: https://nadun-k-s.github.io/Portfolio/

Home: 77B, 10250 Nugegoda (Sri Lanka)

ABOUT ME

Data Engineer / SQL Developer with 2+ years of professional experience in **SQL development, ETL, backend data integration, database optimization, and analytics-ready dataset creation**. Hands-on experience with **Python-based data engineering** projects, **SQL Server, T-SQL, SSIS, AWS Lambda, Amazon S3, Snowflake, Docker, REST APIs**, and **data warehousing**. Experienced in building ETL pipelines, dimensional models, incremental loads, SCD Type 2 workflows, audit logging, and cloud-based data platforms. Currently pursuing an MSc in Data Science and Artificial Intelligence.

SKILLS

Python & Data Engineering

Python / ETL / Data Transformation / API data ingestion / Event-driven Processing

SQL & Databases

Microsoft SQL Server / T-SQL / Stored Procedures / Views / Functions / Query Optimization / Indexing / Performance Tuning / Bloc king & Transaction Troubleshooting / Execution Plan Analysis / Database Design / Complex SQL Queries

Cloud & Data Platforms

AWS Lambda / Amazon S3 / Amazon ECR / AWS Secrets Manager / Snowflake

Data Warehousing

Data Warehousing / Star Schema / Dimensional Modeling / Incremental Loading / SCD Type 2

ETL & Integration

SSIS / REST APIs / ETL audit logging

Tools

SSRS / GitHub / SSMS

WORK EXPERIENCE

TECH84 – Nugegoda, Sri Lanka

Junior Software Engineer – Data

[05/2024 – Current]

- Develop and optimize SQL Server databases, T-SQL queries, stored procedures, views, and functions for business applications and reporting.
- Design and maintain ETL processes using SQL Server Integration Services (SSIS) to extract, transform, and load data from REST APIs and multiple source systems.
- Contribute to data warehouse solutions by developing analytics-ready datasets, supporting dimensional models, and preparing data for reporting and BI initiatives.
- Apply normalization, indexing, query optimization, execution-plan analysis, and performance-tuning practices to improve database efficiency and scalability.
- Collaborate with business stakeholders and Agile teams to translate reporting and data requirements into practical technical solutions.
- Perform data validation and troubleshooting across application, database, and ETL layers to ensure data accuracy and reliable reporting.

Suntec Information Systems (Pvt) Ltd. – Moratuwa, Sri Lanka

Software Developer - Intern

[06/2023 – 05/2024]

- Designed and optimized SQL Server databases supporting transactional and reporting systems.
- Developed complex T-SQL queries, stored procedures, and views for analytics and operational reporting.
- Assisted with backend data integration and database performance troubleshooting.
- Performed query optimization, indexing, and execution-plan analysis to improve SQL performance and reduce report execution times.

EDUCATION AND TRAINING

Bachelor of Information Technology

University of Colombo School of Computing [2023 – 2025]

City: Colombo | **Country:** Sri Lanka | **Field(s) of study:** Information and Communication Technologies

Master of Science in Data Science and Artificial Intelligence

University of Sri Jayewardenepura [2026 – Current]

City: Nugegoda | **Country:** Sri Lanka | **Field(s) of study:** Data Science & AI

PROJECTS

SFA Data Warehouse | SQL Server | SSIS | T-SQL

- Built an end-to-end ETL pipeline for a Sales Force Automation data warehouse.
- Implemented Staging → Dimension → Fact architecture using a Star Schema.
- Implemented incremental data loading and Slowly Changing Dimension (SCD) Type 2 techniques.
- Developed SQL Server and T-SQL components supporting warehouse loading and transformation processes.

Retail Sales Data Platform | AWS | Snowflake | Python | SQL | Docker

- Developed an event-driven data pipeline using AWS Lambda, Amazon S3, and Snowflake.
- Implemented RAW → STAGING → MART architecture using Star Schema principles.
- Implemented audit logging and secure secrets management.
- Designed data transformation workflows for analytical workloads.

---

I am committed to delivering secure, efficient, and scalable IT solutions while continuously enhancing my knowledge and contributing to team success. I thrive in dynamic environments and bring a strong blend of technical expertise, problem-solving ability, and collaborative spirit to every role I undertake.
